PROTECTION AND FREE TRADE.

Twenty-seven years of Protection (1869 to 1896) decreased our public debt \$1,747,367,878.

Three years of Free Trade (1893 to 1896) increased our public debt \$262,329,630.

These are the plainest reasons why McKinley should be elected president, the sooner the better.

BY THE WAYSIDE.

—When men run for public office they usually give their reasons, if they have any other than the desire for the emoluments of the office. Mr. Shepherd has not yet given any good reason why he should represent this district in Congress. But, then, Watson wants to draw the salary, you know.

—By the way, the nuisance that exists at the lower end of Main street has not been abated. The attention of the Chief Burgess and health authorities have been directed to this matter several times, but they appear to ignore it entirely.

—The compulsory educational law does not designate, says Superintendent of Public Instruction Schaeffer, any specific time in which children will be required to enter school, whether at opening of the term or at some subsequent time during its continuance. It is intended to obtain the best possible results in attendance, and to adopt such reasonable rules and regulations as may be deemed proper to enforce attendance in such cases. It is undoubtedly wise and proper to require attendance at the opening of the school term in all cases in which no satisfactory excuse for absence is given by those in charge of a child between 7 and 14 inclusive. Dr. Schaeffer outlines the Directors to use their best judgment and exercise discretion in the enforcement of the law in order to secure a gradual compliance with its provisions.

—Before the voters of Schuylkill county cast their votes on November 3rd, they should weigh well the arguments of every free silver speaker that has addressed them in this campaign. Every one of them, with Candidate Shepherd included, have declared that the adoption of free silver will raise the price of all commodities. If this be true, and it has not been disputed, then an increase of prices is equivalent to a decrease in wages, because the dollar will not have the same purchasing power—about one half. While the Bryan theory of a debased currency will increase the necessities of life, it will not raise wages. Let every workman consider well this question.

—To those who think Watson Shepherd a martyr, we would suggest that if elected his salary will be \$5,000 a year, with a private secretary to do his labors, whatever happens to the rest of us. He will be doing far better than as a pleader at the county bar. He is, no doubt, honest in his fixed purpose to get elected to Congress on any basis that will bring about his life desire. The only thing that disturbs his mind is the difficulty experienced in ascertaining which Shepherd is a candidate—the one that voted for and advocated the gold standard at Allentown, or the one that favored free coinage three months later at Harrisburg. But, then, Watson wants to go to Congress, you know.

—A little fresh wool for Schuylkill county in November. It must be a great big total vote. This will require the vote of every Republican, and with them will be counted the votes of hundreds of Democrats.

—Mr. Bryan boasts of the number of rabbits' feet he has received from all parts of the country. If he had very careful his rabbit's foot will outnumber his votes on the 3d of November. Australia is a great country for rabbits, but under the Australian ballot law neither the rabbits nor their feet are allowed to vote.

—An appreciation of the good work on the part of the HERALD in behalf of the Republican ticket, it might be in order to state that the State Executive Committee use quotations from our editorial columns in preparing names for circulation among the voters of the state. The HERALD is never inkhorn whenever the success of the party and the principles for which it is committed are at stake, and the fact that the State Committee elects the HERALD as one of its authorities

in circulating sound money literature is sufficient to show the appreciation in which the paper is held abroad as well as at home.

—Watson Shepherd has time and again refused to meet Congressman Brumm in a joint debate, and now comes our own "Wandering Willie" with a refusal to discuss the financial question with a young Minersville baker by the name of W. L. Loefer. Mr. Wilhelm has declared that he is ready to discuss the question with any advocate of the present standard, but when his challenge is accepted he brushes the matter aside by the assertion that his challenger is outclassed; that Mr. Loefer doesn't understand the question at issue sufficiently to discuss it intelligently. We have not the pleasure of an acquaintance with "Wandering Willie's" challenger; but we do know that there are men working in the mines to-day that can give Wilhelm pointers on the financial question, and can discuss the issue from a practical standpoint, which Mr. Wilhelm does not. It is a weak position that will not stand the light of discussion, and Wilhelm will realize this when the returns are received on the night of November 3rd.

A Man Crushed to Death at a Jig House, Other Accidents.

MAHANOY CITY, Oct. 6.—Paul Rizib, a Pole employed as a loader at the St. Nicholas Jig house, was crushed to death yesterday afternoon by being caught between cars. Two cars were standing on a track and he was running down two more. After they came together he jumped down and pushed the two forward ones ahead. The rear cars followed faster than he expected and he was caught between the two sections. Rizib was 30 years of age, lived at Ellingowan, and is survived by a wife and family.

Want New Candidates.

PHILADELPHIA, Oct. 6.—A number of prominent Republicans yesterday forwarded a letter, jointly addressed, to Messrs. James Miles and Alexander Crow, appealing to them, in the interest of a united vote at the November polls, to withdraw. Samuel M. Clement, Chairman of the City Executive Committee, in the event of their yielding, is asked to re-convene the Sheriff's Convention to make a new nomination. This is looked upon by the friends of Crow as an acknowledgment of Miles' weakness. Crow says he will not withdraw.

England Should Co-operate with Russia. LONDON, Oct. 6.—Sir William Verner Harcourt, the Liberal leader, in the house of commons, speaking last night at Ebbwvale, expressed himself upon the Turkish question for the first time since the present conditions have developed. He called upon the government to grant security and protection to the Armenians. The Turkish government, he said, could never be reformed until it ceased to exist. But, he added, England could not act alone, but must co-operate with Russia, the first step being to obliterate the Cyprus convention by which the Island of Cyprus was ceded to Great Britain.

Jersey Republicans' Predictions. TRENTON, Oct. 6.—The Republican state committee held an important conference here today with the chairman of the different county committees throughout the state. The reports received were most satisfactory except in one or two instances, and Secretary John Y. Foster said that a calculation of the conservative reports showed that McKinley and Hobart will carry the state by over 40,000. The exceptions were in Salem and Cumberland counties, where, the county chairman reports, there is considerable silver sentiment among the Republican farmers.

Tom Watson Is Still "On It." ATLANTA, Oct. 6.—Tom Watson made a campaign speech at Blue Ridge yesterday, addressing a gathering of about 1,000 persons. He poured hot shot into Sewall from every quarter. From what he had to say he left the impression that he would remain in the race to the end.

ONE DISEASE AND ONE REMEDY.

"The art of painting," said Millais, "consists in selecting the right colors and putting them in the right place."—"The way to win a battle," said Napoleon, "is to mass your troops at the critical moment against the weakest spot in the enemy's line."—"The way to cure many ailments," said the great Dr. Abercrombie, "is to purify the poisoned spring in which they arise, generally the torpid and inflamed digestive system."

Thus wisdom and experience simplify and condense. Thus the Shakers of Mount Lebanon reasoned when they sought, and finally found, a remedy for indigestion and dyspepsia. Where one person has something else, they argued, a thousand have this. To cure this alone will almost rid the world of sickness. Why should we vex ourselves with confusing definitions? A good digestion is life and health; a bad one disease and death. Hence, from the healing and stimulating mountain herbs, they extracted the principles which make the Shaker Digestive Cordial the rarest and most effective of medicines for one disease, and one only—indigestion and dyspepsia.

Do you suffer from any of these miserable feelings—depression of spirits, heaviness and pain in the stomach after meals, bad taste in the mouth, wind in the bowels, irritable disposition, nervous weakness and alarm, worry and weariness, costiveness or irregularity of the bowels, nausea, palpitation, sick headache, heartburn, loss of appetite and sleep, dry skin, etc.—?

Don't indulge in fifty foolish fancies. You have indigestion and dyspepsia and nothing else. Set the disordered stomach right with the one medicine which will surely do it. Shaker Digestive Cordial, and these symptoms will vanish with their cause. A good effect will follow the first doses. Even chronic cases soon yield.

Test the cordial, at practically no cost, by taking a ten-cent trial bottle. For sale by nearly all druggists.

Laconia Car Company Assigns. LACONIA, N. H., Oct. 6.—The Laconia Car Company, through its president, Perley Putnam, a large creditor, petitioned yesterday for the appointment of a receiver and at a hearing last night before Judge Wallace John T. Busiel, Dennis O'Shea and Perley Putnam were appointed receivers. The indebtedness is \$200,000, of which \$150,000 is mortgaged bonds. The floating debt is about \$200,000. Another New York Nominee Retires. NEW YORK, Oct. 6.—Following the announcement by Judge Charles F. Brown, of Newburg, that he declined the Democratic nomination for the office of supreme court judge, because he did not endorse free silver, came the report that Nathaniel H. Clement, also a candidate for a similar office, would decline likewise. When seen last evening Judge Clement verified the report, and said that he had simply been waiting for Judge Brown to take the initiative. The reasons for his declination are substantially the same as those given by Judge Brown. He had believed at first, he said, that the nomination was non-partisan, as a judicial nomination should be, but finding that national issues were being raised in connection with it, he had been forced to withdraw, as he could not stand upon the Chicago platform.

Troops Sent to the Choctaw Country. WASHINGTON, Oct. 6.—At the request of the interior department the secretary of war has sent troops to Tusahoma, in the Choctaw country, to guard against trouble which is apprehended by Agent Wisdom when the new chief of the tribe is installed. The order was sent to General Merritt at Chicago, and the troops sent forward are two troops of cavalry who were at the practice camp, just west of the Oklahoma line. The troops made a forced march, and arrived at Tusahoma yesterday morning.

Armenian Refugees Coming. NEW YORK, Oct. 6.—A cablegram has been received at the Salvation Army headquarters from General Booth stating that a contingent of 100 Armenians, who have escaped the recent massacres in Constantinople, are now on their way to New York, under the auspices of Miss Frances Willard. It is intended to distribute them, as far as possible, in small numbers among friends in different parts of the country. Arrangements are also being made to settle a number of them on a Salvation Army farm colony.

Canon to Guard the Mines. LEADVILLE, Colo., Oct. 6.—General Brooks and his officers have practically decided to make provision for defending the endangered mines by placing cannon on Carbonate hill, which commands most of them. The next object of attack, if further attacks be made, is pretty well understood to be the great pumping plant of the Maud of Erin mine, which drains the Mahata, Emmet and Marian mines, which are now resuming work, as well as many others.

Postoffice Statistics.

WASHINGTON, Oct. 6.—George A. Howard, auditor for the postoffice department, has in preparation his annual report for the fiscal year ended June 30, 1896, which shows that the total revenue for the past fiscal year is \$2,400,000, an increase of \$5,516,080 over the previous year. The total expenditures for the year were \$20,030,300, an increase of \$1,536,134 over the expenditures of the previous year. The excess of expenditures over receipts is \$18,127,080. This is a decrease in the annual deficit of \$1,679,933, as compared with the previous year. During the year 11,794 postmasters have been retired from office—death, resignation or removal.

Responsibility of Hypnotists.

ATLANTA, Oct. 6.—Judge Fouts, of this city, holds that a hypnotist is directly responsible for the acts of his subjects. During a performance at a local theater the subject of a hypnotist imagined he was a monkey. He grabbed a hat from a man in the audience and bit a piece out of it. The professor and his business manager declined to make good the cost of the hat, and the hypnotist was prosecuted before Judge Fouts upon a charge of malicious mischief. The judge sustained the charge and bound the hypnotist over to a higher court.

May Squeeze Out McKinley Electors.

DENVER, Oct. 6.—It appears doubtful whether the McKinley Republican electoral or state ticket will be printed on the official ballot in Colorado. The ticket nominated at Colorado Springs on Sept. 30 was not filed by petition, and the time for receiving such petitions has expired. Now the silver Republicans are preparing a protest against giving the McKinley ticket a place on the ticket, claiming that it represents not the regular Republican organization, but a bolting faction.

Twenty Injured at a Barn Raising.

WOOSTER, O., Oct. 6.—While a barn was being raised on the farm of Daniel Wile, near West Canaan, O., the frame work broke, letting a heavy mass of oak timber fall upon twenty men engaged in the work. All of them received injuries, six having limbs broken. Cyrus E
